→ CROSSROADS  
SYSTEM FURNITURE

DESIGN  
PERFORMANCE  
VALUE

CROSSROADS by ODS is a comprehensive office furniture system designed to address the needs of today's and tomorrow's office. Based on a core frame and tile platform and drawing from legacy of classic systems furniture, CROSSROADS offer extensive choice of components and can be built upon, extended or fully reconfigured in response to changing demographics, advances in technology and evolving work patterns.

## ← CREATIVITY & INNOVATION

CROSSROADS foundation is 3-inch frame and tile panel. Used in combination with 1-inch segmented divider panels, legs and screens from the new XBENCH system and LIFT height-adjustable tables, CROSSROADS migrates with ease from traditional cubicle layouts to modern technology set-ups to contemporary private offices and conference rooms concepts.

Adaptable and scalable, CROSSROADS allows you to make any office space your own office in style and on the budget.

## → FLEXIBILITY OF DESIGN

CROSSROADS makes it possible to create the exact workplace required. Vertical surfaces are offered as a whiteboard, tackboard, accessory tool rail, wood, laminate, glass or metal. A variety of desk space liberating accessories are offered.

Integrated screens add privacy and protection. Worksurfaces are ergonomically designed to support workflow patterns featuring standard fixed height, drop-down for lower storage and height-adjustable applications.

## SEAMLESS ↑ INTEGRATION

CROSSROADS was designed to stand alone or be used with other ODS lines – XBENCH-fixed height benching system and LIFT tables – height-adjustable bases. Height-adjustable workstations is a staple of modern office. CROSSROADS high panels with glazed upper row work in unison with LIFT tables that feature work-surface integrated screens allow for separation, protection and privacy, creating a lighter working environment instead of relying on traditional panels lay-out. Mobile pedestals with cushions are strong enough to be used as impromptu guest seating.

# ↑ PLENTIFUL STORAGE

While going digital is a strong trend of modern office, the need for traditional storage still remains. CROSSROADS offers extensive range of storage solutions - vertical storage towers, pedestals - fixed and mobile, traditional lateral files, open shelves and low storage units. Metal storage components have a light, clean look, and offer a range of attractive finishes. Shown seamless integration of XBENCH legs with CROSSROADS systems furniture.

# ↑ OPTIONS ABUNDANT

CROSSROADS offers a mix of materials that contribute to aesthetics, function and sustainability goals of modern office. Channel-mounted bracket-less frosted glass adds to privacy, but at the same time allows flow of natural light. Wood doors bring an upscale look to the metal cabinet cases. Laminated gallery panels reflect the latest trend of modern office.

# ↑ DESIGN CHOICES

Along with using traditional materials like steel, aluminum, laminate, fabric and glass, CROSSROADS innovative approach offers such upscale materials like Rigid Thermo Foil (RTF) and Polyester Felt (PET) that offer multiple choice of colors and patterns allows creating unique office environments.

# PRIVACY WHEN NEEDED

From open space collaborative areas to semi-private settings for focused teams, from a conference room to a modern corner office CROSSROADS strikes a balance between the needs of the user and those of the organization.

## ↑ COLORS & FINISHES

CROSSROADS systems furniture is versatile and adaptive. It easily integrates with ODS LIFT tables and allows creating more private environment for certain applications by adding height-adjustable functions to the office space. Worksurfaces are available in a variety of shapes, including 120-degree setups that support unique workstyles, job functions and preferred orientation. Channel mounted frosted glass creates more privacy and at the same time allows natural light flow and integrated white board adds function to the featured set-up.

# → DESIGN, PERFORMANCE, VALUE!

ODS family of products, including CROSSROADS systems furniture, XBENCH fixed height benching and LIFT height adjustable tables were designed to integrate seamlessly, adapt to changes, and extend planning possibilities for uniquely functional workspace, while doing it in style and on the budget.
